30.03.2012

Dear customer

LUKAS-ERZETT recently acquired Rottluff, a cutting and grinding manufacturer, based in Chemnitz Germany. Thus uniting two of Europe's top tool and abrasive manufactures under one roof.

Rottluff joins our extensive service and product range offering with over 100 years of manufacturing experience and expertise. We are proud to integrate Rottluff state of the art technology into our Lukas SA product offering. Customers will now enjoy a wider range of cutting and grinding wheels, including special applications and exotic materials.

In addition, with the success of the LUKAS-ERZETT innovative developments over the past 75 years, German manufactured burrs will now be offered through LUKAS SOUTH AFRICA.

During the month of May 2012 these products will be phased in to complement our range. Lukas SA will continue giving you these German manufactured products in line with its current pricing policy. Benefits will include added value and wider ranges for all your application requirements.

The advancement of the Lukas Customer is integral to our philosophy of "Always the right tool". An extensive and all inclusive catalogue will help you find the right tool for your application. Please have a look at our web page www.lukas.co.za for more information that will guide you through the whole Lukas range.

Best regards

Isabel Cheney
